Critical Friend:

Goals

<p>Specific</p> 	<p>What are you going to do with your students? Why are you doing this? A specific description here will make planning the learning easier.</p>
<p>Measurable</p> 	<p>How will you know when you've reached your goal? Was the outcome a success? What sort of assessment will you put in place for yourself and your students?</p>
<p>Achievable</p> 	<p>What key steps will you take?</p>

<p><b>Realistic</b></p> 	<p>Don't plan things that will be difficult to achieve. Take into account the age of your students, the availability of equipment and your skills.</p> <p>What equipment and knowledge will you need?</p> <p>What will you need help with?</p>
<p><b>Timeframe</b></p> 	<ol style="list-style-type: none"><li>1. When will you have the planning completed by?</li><li>2. When do you plan to start work on this goal with your students?</li><li>3. What is your plan for ongoing work?</li><li>4. What is the completion date for students?</li><li>5. What date will you reflect and assess the work?</li></ol> <p>When will you be presenting the goal and the outcome to your colleagues?</p>
